City of London**

Brought to you by

Raising international standards for public sector fleet managers

The LAPV Future Fleet Forum will bring together fleet and transport managers from the public sector and its contracting organisations to address key challenges faced by our industry, including procurement issues, compliance, safety, and sustainability.

The Future Fleet Forum is the only international public sector fleet management event that offers new ways of thinking, examples of global best practice, and solutions to overcome the challenges of managing a fleet in a constantly changing political environment.

The event will be delivered by senior fleet management officials from two of the leading cities in the world, London and New York, as well as a range of international experts.

The welcome address will be delivered by Valerie Shawcross CBE, Deputy Mayor of Transport for London, and confirmed speakers include representatives from UPS, Vision Zero, the City of London Corporation, City of New York, CILT, City of London Police, London Borough of Hackney, University of Hull, King's College London and more.

Attend both days and you can gain up to 8.5 CPD hours certified by the Chartered Institute of Logistics and Transport

Future Fleet Forum 2018 will offer a unique platform to network across the industry, and provides the opportunity to:

- Learn about changes in legislation and fleet procurement processes and procedures
- Achieve a greater understanding about how local authority fleet management works in different types of councils
- Identify new ways to improve the efficiency of operations and reduce costs
- See live vehicle demonstrations and meet with exhibitors from the industry
- Gain CPD points, certified by the Chartered Institute of Logistics and Transport

Make sure you don't miss out on this unique event by
registering your interest at www.futurefleetforum.co.uk.

PROGRAMME

DAY 1

Those attending day one of the conference can apply for up to five hours of CPD points awarded by CILT

Opening and Introduction

Christopher M Hayward, Chairman of the Planning and Transportation Committee, Member for the Ward of Broad Street, City of London

Ann Marie Knegt, Editor, LAPV

Welcome

Valerie Shawcross, CBE, Deputy Mayor of London for Transport

Large-scale advanced-propulsion vehicle deployments

- Learn how to create a world-class sustainable fleet operation
- Find out about best practices for strategic deployment of advanced-propulsion vehicles
- Learn about creating pathways to Government agencies and assistance programmes
- Find out how to make a return on investment for sustainable fleet operations

Michael G Britt Sr, Director of Maintenance and Engineering, UPS

The impact of Brexit on fleet procurement: best practice and lessons learned from USA trade relations

- Gain insightful detail on the possible trade procurement relations between the UK and the EU
- Become up-to-date with significant best practice from established procurement systems in USA
- Benefit from listening to an international authority on business and trade law and gain a high-level appreciation of the changing demands and requirements in UK fleet procurement post Brexit

Professor Christopher Bovis, Professor of International and European Business Law, University of Hull

Electric technology for RCVs

Alun Williams, Applications Manager, Geesinknorba

Colin McMorine, Regional Business Manager, Geesinknorba

Creating an innovation culture and achieving better recruitment practice

- Find out how the RAF's 'Thinking to Win' programme can work for your organisation
- Find out how to double your innovation journey
- Learn about the three key ingredients to focus brainpower on challenges and opportunities for success

Richard Atkinson, Director of Marketing and Communications, CILT

Biofuel trials and creating a zero-carbon fleet

- Gain an insight to the benefits of renewable biofuel
- Learn about the successes and challenges of implementing electric vehicles and supporting charging infrastructure
- Find out about potential developments for EVs and their infrastructure

Norman Harding, Corporate Fleet Manager, London Borough of Hackney Council

Urban air pollution from road transport - good news and bad news

- Learn about air pollution in comparison to legal limits, as well as the health impact
- Find out about progress on improving air pollution from road traffic
- Gain an understanding about non-tailpipe particle sources
- See evidence on the variable performance of selective catalytic converters to clean up NO_x and NO₂ from diesels

Dr Gary Fuller, Air Pollution Scientist, King's College London

How Vision Zero can contribute to safety and sustainability for vehicle fleets

- Learn what Vision Zero tells us about our current vehicles and what can be achieved by a holistic approach
- Find out what Vision Zero has meant so far and what it has achieved for public sector fleets worldwide
- Find out how Vision Zero can help your fleet and authority and how it will affect the future of fleet management

Professor Claes Tingvall, Professor and Senior Consultant, ÅF Consulting, Sweden

Understand your cradle-to-grave fleet data. Make smarter decisions

- Learn how single-system integration with CAM (Capital Asset Management), Fleet Focus and Fuel Focus, or maintenance and fuel systems can benefit you

PROGRAMME

DAY 1

- Learn how to achieve compliance and how to remove single points of failure
- Find out how to use life-cycle modelling by category and create the ability to build strategic replacement plans up to 20 years out

Nick Bridle, Professional Services Consultant - Fleet Management, Assetworks

Implementing a responsible procurement strategy

- Learn how to implement a responsible procurement programme
- Find out how highlighting issues such as social value, environmental sustainability, and ethical sourcing at an appropriate level can help achieve a better return on investment
- Find out how responsible procurement of vehicles can significantly improve core local authority services, and lead to better future contracts

Christopher Bell FCIPS, Commercial Director, City of London

The future of New York City's fleet

- Learn how the New York City Clean Fleet initiative has reduced greenhouse gas emissions by 50%
- Find out what New York City's Vision Zero programme has done for safety, and how the fleet is playing a leading part
- Find out how innovations in fleet procurement for the largest municipal fleet in the world can work for your fleet as well

Keith Kerman, Deputy Commissioner and Chief Fleet Officer, City of New York

Final panel debate: Changes in Government administration, how policy changes will affect your operation, and how to steer your department through tumultuous times

Christopher M Hayward, City of London

Panellists:

Michael G Britt, UPS

Keith Kerman, City of New York

Dr Gary Fuller, King's College London

Professor Chris Bovis, University of Hull

Richard Atkinson, CILT

Norman Harding, London Borough of Hackney

Christopher Bell, City of London

Claes Tingvall, ÅF Consulting, Sweden

Close of conference

Christopher M Hayward, City of London

Ann Marie Knecht, Editor, LAPV

Drinks reception and dinner followed by LAPV Future Fleet Awards

DAY 2

Those attending day two of the conference can apply for up to 3.5 hours of CPD points awarded by CILT

Fleet and road safety workshop

- Learn about the importance of driver training, education, and messaging
- Find out about tracking collisions in a global fashion to review issues and trends
- Learn about the development and implementation of the New York City Safe Fleet Transition Plan
- Find out how to use vehicle telematics to monitor overall driver behaviour and significant events

Eric Richardson DCFMO, Deputy Chief Fleet Officer, New York City

Sheila Moules, Behaviour Change and Campaigns Officer, City of London

Driver and mechanic shortage workshop, plus how to champion our industry and attract new talent / NYC education initiative at schools.

- Find out about the barriers for entry for new drivers and mechanics
- Find out what 'Championing the Industry' looks like
- Find out how to attract new talent, and what works and what does not
- Find out how the New York City Fleet has a successful partnership with the public high schools and colleges to promote automotive education including paid internships, equipment and support
- Learn how New York City is growing partnerships and efforts to establish pathways to employment in the fleet industry, public and private

PROGRAMME

DAY 2

- Learn how London's City Mark aims to influence the level of Work Related Road Safety (WRRS) compliance on construction sites in the City of London, helping to reduce risks for vulnerable road users

Austin Birks FCILT, Chair – Bus & Coach Forum Chair/CILT Transport & Logistics Safety Forum Vice Chair, CILT

Eric Richardson, Deputy Fleet Manager, City of New York

Fleet consolidation, interoperability between departments, and procurement strategies

- Learn how New York City completed a major consolidation of fleet services involving light and heavy-duty repair, auto parts, and auction
- Find out how New York City implemented a culture of sharing across agencies for daily fleet servicing, pool cars, and contract specifications
- Learn how the City of London's experience of reducing fleet and working collaboratively across departments to utilise vehicles and plant
- Find out how the City of London procured contracts and how other departments benefited for their vehicle repairs and services from the contractor
- Find out how the City of London reviewed its fleet and maximised the sale of the vehicles and plant at auction with a job lot

Keith Kerman, Chief Fleet Officer, City of New York

Arend Mouton, Fleet Manager, City of London Police

Vince Dignam, Business Performance Manager, City of London

Final discussion and close

Ann-Marie Knegt, Editor, LAPV

Speaker biographies

Richard Atkinson

CBE MA FCILT FRSA MIOd MCIPR MA
Director of Marketing and Communications
CILT

Richard Atkinson served in the RAF, joining as a fighter pilot in 1982. In January 2012, he was posted as Head of RAF Media and Communications and was appointed to the Most Excellent Order of the British Empire as a Commander. Most recently he served as RAF Corporate Development Officer to redouble the RAF's innovation culture.

Michael G Britt Sr

Director of Maintenance and Engineering
UPS

Michael Britt has spent 31 years at UPS, working in capacities including operations, industrial engineering and automotive engineering. Michael has led efforts in alternative fuel projects and technology development for the US and international fleets, including compressed natural gas, liquefied natural gas, propane, electric technology, hydrogen fuel cells, and hybrid vehicle development, including both hybrid and electric.

Christopher Bell

FCIPS
Commercial Director
City of London

Christopher Bell has over 20 years of experience in leading procurement and commercial functions specialising in business transformation, outsourcing, and category management development. He currently leads a 60-person department at City of London. The transformation of City procurement led to him being named as the Chartered Institute of Procurement and Supply's Management Professional of the year in 2016.

Vince Dignam

Business Performance Manager
City of London

Vince Dignam has been in the transport industry for over 30 years. His main duties involve coordinating the cleansing, waste and transport contracts for the City of London. He is the 'O' licence holder for the City of London and responsible for the implementation of the Corporate Transport Policy. Vince is a member of CILT, a member of CIWM, a Carmen Liveryman and Freeman of the City of London. In 2017, Vince became Chairman of the FORS Executive Group. He is also a CLOCS Champion promoting work-related Road Risk Strategy.

Austin Birks

FCILT
Bus & Coach Forum Chair / CILT Transport &
Logistics Safety Forum Vice Chair
CILT

In addition to his roles at the CILT, Austin Birks is Head of Business Development for uTrack Software Solutions, a multiple award-winning company that makes apps for transport companies (including National Express Coach UK and Greyhound across North America). In 2006, Austin won an award from the EU for ground-breaking recruitment innovations.

Dr Gary Fuller

Air Pollution Scientist
King's College London

Dr Gary Fuller is an air pollution scientist at King's College London. He led the development of the London Air Quality Network and has pursued network data analysis techniques to characterise trends in the sources of urban air pollution and, importantly, the impact of policies to clean the air that we breathe. He also works closely with toxicologists and epidemiologists to investigate the impact of urban air pollution on our health.

Professor Christopher Bovis

JD, MPhil, LL.M, FRSA
Professor of International and European
Business Law
University of Hull

Professor Christopher Bovis is a leading authority in public procurement and public-private partnerships, specialising in all areas of European business law, antitrust law and policy, with particular emphasis on public sector management. He advises national governments in public sector reforms and has acted on behalf of public sector industries on numerous high-profile projects.

Norman Harding

MIRTE MSOE
Corporate Fleet Manager
London Borough of Hackney Council

Norman Harding provides cost effective fleet and services support for Hackney Council's internal customers, and is responsible for 460 vehicles. He coordinates asset and service contract procurement to maximise value, with an emphasis on legal compliance, cost efficiency, safety, continuous improvement and environmental sustainability. Norman has considerable experience of implementing alternative fuel technology including LPG, electric and hybrid vehicles, and high-blend UCO biodiesel. He also chairs ALTO, a voluntary network of senior transport managers from the 33 London authorities.

Nick Bridle

MIRTE SOE, MICFM CMILT
Assetworks

Nick Bridle is a Professional Services Consultant - Fleet Management Systems for Assetworks. Before that, he was Plant Manager at the Royal Mail Operations in the Dorset Mail Centre. He also worked as the Area Transport Manager for Hampshire and Dorset, where he was responsible for a £8.5m budget, and 1,122 vehicles based at 67 offices.

Speaker biographies

Christopher M Hayward

Chairman of the Planning and Transportation Committee, Member for the Ward of Broad Street
City of London Corporation

Christopher Hayward is a former Deputy Leader of Hertfordshire County Council and was elected to the Common Council of the Corporation of the City of London for Broad Street Ward in March 2013. He serves as Chairman of the City's Planning and Transportation Committee. Chris has also been Churchwarden at St Margaret Pattens and Chairman of The Trustees of the Friends of St Margaret Pattens. He is a former chairman of the Broad Street Ward Club, a member of the Candlewick Ward Club, Life and Council member of the City Branch of the Royal Society of Saint George and a Life and Court member of The Guild of Freemen. In addition, he is a Past Master of the Worshipful Company of Pattenmakers.

Eric Richardson

Deputy Chief Fleet Management Officer
City of New York

Eric Richardson first entered the world of fleet in 2002 via the information technology side managing NYC's first citywide fleet management system. He coordinated special projects including working on the upgrade of the citywide fleet management system, the citywide replacement of fuel cards for over 12,000 vehicles and 24/7 fueling with the National Guard after superstorm Sandy. As a member of the Vision Zero Task Force, Eric is continuing work on the largest municipal roll-out of truck side guards, a robust vehicle telematics program, and ensuring that all of the city's non-emergency authorised drivers have taken the New York State-authorised defensive-driving programme.

Keith Kerman

Chief Fleet Officer
City of New York

Keith Kerman is a Deputy Commissioner at the Department of Citywide Administrative Services (DCAS) and New York City's first Chief Fleet Officer. Keith is an agency lead for Mayor de Blasio's Vision Zero initiative to eliminate traffic fatalities in NYC and is currently spearheading a series of safety initiatives for the city's fleet. New York City has the largest municipal fleet in the United States with over 30,000 vehicles, 80,000 fleet operators, and more than 2,000 staff engaged in fleet operations and servicing. It also has one of the greenest fleets in the USA, with more than 17,000 vehicles operating on some type of alternative fuel including hybrids, electric, compressed natural gas, and biodiesel.

Chris Ruane

Public Authority Development Officer
CILT

Chris Ruane MILT is the Public Authority Development Officer for the Chartered Institute of Logistics and Transport.

Chris' role is to support individuals and organisations working within the public sector, in particular membership, training, and the Institute's Public Sector Benchmarking Club: Palmark.

Prior to joining the CILT, Chris was with the Freight Transport Association for 14 years, again working with the public sector, and has also worked for the Road Haulage Association and the National Bus Company.

Sheila Moules

CMILT
Behaviour Change and Campaigns Officer
City of London

Sheila Moules started her career as a Class 1 HGV driver in the armed forces, and has since worked in the transport and logistics industry for over 25 years. Since 2014, Sheila has led on the delivery of work related road risk to improve the overall levels of safety, efficiency and environmental protection within the construction and haulage industry. Most recently she has been leading on the development of City Mark; a new initiative that seeks to understand the level of Work Related Road Safety compliance (CLOCS and FORS) within the City of London. In 2016, she was granted the Honorary Freedom of the City for her continued achievements and contributions to Road Safety at the City of London Corporation.

Graham Sheen

Business Services Secretary (Benchmarking)
CILT

Graham Sheen is the Business Services Secretary (Benchmarking) for the Chartered Institute of Logistics and Transport.

Graham's role is to facilitate the day-to-day running of the Logmark, Busmark and Palmark benchmarking clubs, annual surveys, results analysis and meetings. Prior to joining the CILT, Graham worked as a Prisoner Activity Management Officer for the Ministry of Justice, through HMP Gartree, and has also worked with RS Components and the Chartered Management Institute.

Arend Mouton

Vehicle Fleet Manager
City of London Police

Arend Mouton started work at City of London Police in 2002 and became the Fleet Manager in November 2006. He is a chartered member of CILT and recently became a Freeman of The City of London. Arend is also Secretary for the National Association of Police Fleet Managers (NAPFM) and involved in its Strategic Development Group. He has been at the forefront of emergency vehicle engineering and procurement: exchanging specifications and best value outcomes to standardise vehicle specifications and aggregating buying volumes. Arend also heads up two purchasing groups using innovative procurement methodology, such as life cycle based e-auctions and a whole life cost assessment, whilst reducing the maximum permissible CO₂ emissions from those vehicles considered for procurement.

Claes Tingvall

Professor and Senior Consultant
ÅF Consulting, Sweden

Claes Tingvall is Professor and Senior Consultant at ÅF in Sweden. He was former Director of Traffic Safety at the Swedish Transport Administration and was involved from day one in the development of Vision Zero. Claes Tingvall is an epidemiologist with a PhD from Karolinska Institute in Stockholm. He also has a Doctor of Science degree hc from Emory University in Atlanta, Georgia. He was Director and Professor of Monash University Accident Research Centre in Melbourne, Australia. Claes Tingvall has been Chairman of the Board of Euro NCAP and Chairman of ISO PC 241 responsible for the development of ISO 39001, the management system for traffic safety.

Future Fleet Awards 2018

Have you got what it takes to be the best in the industry?

Wednesday 24 January 2018 | Guildhall, City of London, UK

The most innovative strategic, safety, and sustainability initiatives in the UK fleet management sector will be recognised at a lavish awards ceremony at LAPV's Future Fleet Forum in January 2018. Sponsored by NRG Fleet Services, the awards ceremony is hosted by Sir Richard Noble, the world's landspeed-record holder. Held at London's Guildhall on 24 January 2018, the event will hand out awards to public sector organisations in three categories:

- Best fleet/road safety initiative
- Most innovative fleet management strategy
- Most sustainable fleet management department.

A high-profile judging panel has been put together that combines knowledge and expertise in fleet management from London to New York.

The Judging Panel:

Keith Kerman

Deputy Commissioner and Chief Fleet Officer, **City of New York**

Eric Richardson

Deputy Fleet Officer, **City of New York**

Vince Dignam

Business Performance Manager, **City of London**

Arend Mouton

Vehicle Fleet Manager, **City of London Police**

Chris Ruane

Public Authority Development Officer, **CILT**

Graham Sheen

Business Services Secretary (benchmarking), **CILT**

Ann-Marie Knegt

Editor of **LAPV** and **Fire & Rescue** magazines

Public sector organisations and contractors can enter by submitting a 750-1,000 word case study on their project, which should include the challenge that was addressed, the situation prior to the implementation of the new strategy, how the solution was implemented and which service providers were involved. The case study can include pictures, videos, and hyperlinks to relevant news coverage.

Submit your entries:

A submissions portal is available on www.futurefleetforum.co.uk. Submissions can also be sent to LAPV editor Ann-Marie Knegt: am.knegt@hgluk.com

In selecting the winners, the judges will score submissions on the following criteria: innovation; use of technology; management of staff; public engagement; savings made; improvement of service to the public; improvement for internal organisation; staff engagement; sustainability; and safety.

The winners in each category will receive a two-page write up on their project in LAPV, a Future Fleet awards statue, and the right to display the Future Fleet winners' badge on their literature.

To reserve your place at the awards dinner contact Jason Pidgeon for more information:
